Re: Interview Request for 09/720,084

Examiner Kianni,

We appreciate your willingness to work with us on this matter. As I have indicated over the phone, I believe a personal interview will be more fruitful than a phone interview. We believe we can better explain the prior art and the differences we have.

We are hoping that we can provide a better explanation and also to understand your perspective better. In this manner, we may be able to promote the prosecution of this application more expeditiously and more efficiently.

As I told you, our client has indicated an interest in attending the interview if it is granted. Since the client is from overseas, we don't know whether this will actually happen, but I would like to provide our client with more information. Also the client may be better at explaining the present invention better than I can.

Also, I indicated March 23rd as the proposed date of interview. However, this is flexible, and I would actually prefer earlier time. I proposed that date simply to provide you with ample time to retrieve the case. If you can retrieve the case earlier, that would be preferable.

If you have any questions, please do not hesitate to contact me. My direct number is 703-208-4003.

Thank you.

Hyung Sohn
